

It's time to have a virtualization strategy

Virtualization for Non-Profits

Official Lunch & Learn Invitation.

May 18th, 2010

Virtualization is fast becoming a necessary tool for efficient and successful operations. Join Marathon for a free lunch & learn style seminar that is ideal for any organization. We will discuss the key points for understanding what virtualization means for you organization and how as a non-profit you can leverage your 501 (c)(3) for increased savings. You'll be surprised to know how these solutions can pay for themselves, many times in less than 12 months.

We'll discuss the Virtualization Concept, Server Consolidation, Disaster Recovery, Desktops, Licensing Savings, Support, Real World Examples, ROI/TCO and More.

Space IS limited, reserve your spot now.

Organizations using virtualization report infrastructure cost savings of 50%. Why can't you? Whether you already have a virtualization strategy or don't know where to start, you'll learn something at this event.

Virtualization for Non-Profits
